

The Community

Community Corruption Moves

- **Share the Burden:** The Corruption manifests itself in you in subtle ways, affecting your speech, tone, and actions in a way that's felt by the inhabitants around you. Describe how an aspect of your personality has changed and place 2 additional Corruption tokens on your city map. The locations you choose should be important to you or your story.
- **Gone, But Not Forgotten:** Describe how you have come to understand the Corruption's truth, succumb to its influence, or make a dramatic sacrifice on behalf of your friends and family. Work with the Guide to describe how you end your journey in this story, become a supporting cast character under the Guide's control, or redeem yourself in a powerful symbolic gesture.

Community Advancements

- **Bastion:** Add a permanent Harmony token on the map and declare what source of good will never be extinguished.
- **Discovery:** Create a new feature in your Community and draw it on the map.
- **Evolution:** Radically alter one of your Community's defining features.
- **Custom:** Create a new Advancement for your Community.
